

Even if it costs me my life – Systemic Constellation Work in the Field of Illness and Health

International Guest Seminar with **Stephan Hausner**

Fri & Sat 8-9 June 2012, London

Employing both the holistic and systemic paradigms Stephan will explore the origins of illness and health. This seminar will expand our understanding of the expression of symptoms and shed fresh light on how psychological and family system dynamics influence a person's disease process. It will explore such questions as:

- Why do particular symptoms appear?
- Why do certain illnesses, diseases or accidents repeat themselves within a family?
- Why do diseases sometimes skip a generation?
- How do trans-generational issues manifest as symptoms?

Stephan's approach to working with symptoms in constellations will provide both therapists and clients with new perspectives and empowering healing resolutions.

This seminar will be a mixture of teaching and an opportunity to work with Stephan Hausner on your own issues.

Dates: 8-9th June 2012
